-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to the Preliminary Amendment***

1. The preliminary amendment was received on July 17, 2003 and paced in the record. However, in page 3 of the preliminary amendment, applicants canceled claim 1 and added new claims 8-19 and in other hand in the remarks section, in page 7 of the preliminary amendment, applicants indicated cancellation of all the claims that were originally filed, i.e., claims 1-7. The Examiner noted that it seems a typo the purpose of the preliminary amendment to cancel claims 1-7 and add new claims 8-19. To make the record clear, however, applicants are respectfully requested to indicate the cancellation of claims 1-7 and submit supplemental preliminary amendment that complies with 37 CFR 1.121.

### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- Group I, Claims 8-14, drawn to Semiconductor Device, classified in class 257, subclass 595.
- Group II, Claims 15-19, drawn to Method for Fabricating a Semiconductor Device, classified in class 438, subclass 226+.
3. The inventions are distinct, each from the other because of the following reasons:
4. Inventions Group II and Group I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the

Art Unit: 2823

instant case the device of Group I can be formed by CVD process to form the first semiconductor layer instead of epitaxial growth.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. A telephone call was made to Mr. Michael E. Fogarty on April 30, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

7. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
